## e-Learning bulk-buy

**Whether you need several courses for your personal development or multiple registrations for your team or organisation, we are pleased to offer bulk-buy discounted packages.**

### **What is bulk-buy?**

If you're interested in several e-Learning courses for you or your team, buying in bulk will entitle you to a discount. The more you buy, the more significant the discount will be.

### **How does it work?**

Each of our e-Learning courses have a unit value; these units make up your bulk-buy package. One unit value equates to £38 for members and £47.50 for non-members (see the table [below](#)). To achieve the bulk-buy discount, you must buy 10+ units.

### **What is each course worth?**

Courses start at a unit value of 1 and can be as high as 6. You have complete flexibility of how you use your units. For example, if you purchased 10 units, it could be used to buy ten 1-unit courses, or one 6-unit course and two 2-unit courses.

### **Why have a unit-based set-up?**

Our course prices vary between £38 - £228 for members, and £47.50 - £285 for non-members. This makes quoting for bulk-buy difficult if a customer hasn't yet decided on what courses they want. Moving to a unit-based set-up simplifies the process and ensures we are offering true value to our clients.

### **What discounts do you offer?**

Discounts start at 10% and increase to a maximum of 30%.

### **How do I assign courses to my team?**

At your request, tCI can enrol members of your team onto e-Learning courses. When you request enrolment/s, we will assign courses as soon as possible and notify you when it's accessible.

### **How can I monitor my team's progress?**

We can supply you with regular updates on how your team is getting on. When you purchase your bulk-buy package, we can come to an agreement on how regularly you would like to be updated; typically on a monthly or quarterly basis. We'll also keep a record of your used/available credits so you'll know exactly what you have remaining.

### **Is there a time limit on unit usage?**

No, you can use them as and when you wish.

## **Are you interested?**

Please [get in touch](#) if you have any further questions or would like us to give you a quote for your training needs.
